Search journals, books, images, and primary sources

JSTOR provides access to more than 12 million academic journal articles, books, and primary sources in 75 disciplines. Explore a wide range of scholarly content through its advanced search, text analyzer tool, and much more!

Search

- Type key search terms, subjects, or article titles in the search bar (pictured above), and click . If searching a phrase, enclose the words in quotation marks, i.e., "conflict resolution."

Advanced Search

- Select **Advanced Search** right above the search bar to the right.
- Selecting the **+ Add Row** feature will allow for additional terms to be included within the search.
- Use the drop-down list next to the search box to select a **Field**: author, item title, abstract, caption.
- Tip:** Results may then be narrowed down beneath the search bar by Item Type, Language, and Publication Date range.
